

Pet Smoke Safety Quick Guide

Printable family reference - [FireSeasonWellness.com](https://www.FireSeasonWellness.com)

TODAY

- ☐ Keep windows and doors closed and place animals in the cleaner-air area.: Birds and pets with breathing or heart conditions may need earlier relocation.
- ☐ Use short leash bathroom breaks and postpone exercise when AQI is poor.: Avoid running, play, or training that increases breathing rate.
- ☐ Look for coughing, gagging, noisy or difficult breathing, eye irritation, weakness, disorientation, or reduced appetite.: Contact a veterinarian promptly if symptoms appear.
- ☐ Keep carriers, leashes, records, medicines, food, water, identification, and destinations ready.: Do not leave animals behind during an evacuation.

REMEMBER

- ☐ Keep pets in cleaner indoor air, shorten outdoor activity, watch breathing and behavior, and contact a veterinarian when symptoms appear.
- ☐ Follow official evacuation orders, local public-health guidance, and individual medical or veterinary advice.
